Dear Mr. Gallagher,

I appreciate your thoughtful letter and the impressive critique enclosed with it. Thanks for both.

I'll do no more writing about Posner but I have a large file of the original book, of which more than a quarter was printed, and the documentation as well as of what he said in promoting it. I'me very glad to have what I did not go into for the record for our history. What you sent will be included in the archive I leave that will be at a fine local small college, Hood.

As I remember after all these years, I went into Day as you did not in White-Wash II. Including that the FBI could not get the time of day from him about that print.

Long delayed NEVER AGAIN! is now in the publisher's catalogue for April. I enclose a copy of that page I've just gotten.

Again thanks, sincerely,

Harold Weisberg
